Note 1 - General information

CLARTAN (the "SICAV") is a variable capital investment company with multiple Sub-Funds governed by Luxembourg law, subject to Part I of the Law of 2010. It was created for an indefinite period on 20 August 2014 and its Articles of Incorporation were published on 26st August 2014.

The Net Asset Value and the issue, redemption and conversion prices of each share class are available each full bank business day in Luxembourg from the registered office of the SICAV.

The following documents are available to the public at the registered office of the SICAV and the Management Company:

- The SICAV's Prospectus, including the Articles of Incorporation and the factsheets,
- the SICAV's KIIDs (also published on the website www.clartan.com),
- the SICAV's financial reports.

A copy of the agreements that the SICAV has entered into with its Management Company, Investment Managers and Investment Advisers may be consulted free of charge at the SICAV's registered office.

Note 2 - Significant accounting policies

a) Presentation of the financial statements

The financial statements of the SICAV are prepared in accordance with Luxembourg legal and regulatory requirements concerning undertakings for collective investment and with generally accepted accounting principles in Luxembourg.

The financial statements of the SICAV have been prepared on a going concern basis.

b) Valuation of assets

The value of all cash in funds or on account, bill credits, sight drafts and receivables, prepaid expenses, dividends and interest declared or accrued but not yet collected is calculated at the nominal value of these assets, unless, however, it is unlikely that the value is received; in the latter case, the value is determined by the Company making an appropriate deduction, at its own discretion, to represent the actual value of these assets.

The value of all transferable securities, money market instruments and financial derivatives that are listed on an exchange or traded on any other regulated market that operates regularly and is recognised and open to the public shall be determined according to the last available price.

If Company investments are listed on a stock exchange or traded on another regulated market that operates regularly and is recognised and open to the public and traded by market makers outside the stock market on which the investments are listed or the market on which they are traded, the Board of Directors may determine a principal market for the investments in question, which shall thereafter be valued at the last price available on this market.

Financial derivatives not listed on an official stock exchange or traded on any other regulated market that operates regularly and is recognised and open to the public shall be valued in accordance with market practice, as may be described in greater detail in the Prospectus.

Notes to the financial statements (continued)

as at 30th June 2021

The value of units representing any open-ended undertaking for collective investment shall be determined using the last official net asset value per unit or the last net asset value estimate if this value is more recent than the official net asset value, provided that the Company is guaranteed that the valuation method used for this estimate is consistent with that used for the calculation of the official net asset value.

In so far as:

- the transferable securities, money market instruments and/or derivative instruments in the portfolio
 on the Valuation Date are neither listed nor traded either on a stock exchange or on another
 regulated market that operates regularly and is recognised and open to the public,
- transferable securities, money market instruments and/or financial derivatives listed and traded on a stock exchange or other such market whose prices determined according to paragraph b) do not, in the opinion of the Board of Directors, reflect the true value of these transferable securities, money market instruments and/or financial derivatives; or
- financial derivatives traded over the counter and/or securities that represent undertakings for collective investment whose prices determined according to paragraphs d) or f) do not, in the opinion of the Board of Directors, reflect the true value of the financial derivatives or securities that represent undertakings for collective investment,

the board of directors estimates the probable sale value conservatively and in good faith.

c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by the Sub-Funds that are denominated in currencies other than the reference currency of the Sub-Funds is converted into this currency at the exchange rate prevailing on the date of purchase.

d) Net realised gain/(loss) on securities portfolio

The realised gains and losses on securities portfolio are calculated on the basis of the average acquisition cost and are disclosed net in the statement of operations and other changes in nets assets.

e) Investment portfolio income

Dividend income is recorded at the ex-date, net of any withholding tax.

Interest income accrued is recorded, net of any withholding tax.

f) Valuation of forward foreign exchange contracts

Open forward foreign exchange contracts are valued at forward market rates for the remaining period from valuation date to the maturity of the contracts. Net unrealised gains or losses of open contracts are disclosed in the statement of net assets. Net variation of the unrealised gains or losses and net realised gains or losses are disclosed in the statement of operations and other changes in net assets.

a) Formation expenses

Formation expenses are amortised on a straight line basis over a period of five years.

If the launch of a Sub-Fund occurs after the launch date of the SICAV, the formation expenses related to the launch of the new Sub-Funds are charged to such Sub-Funds alone and may be amortised over a maximum of five years with effect as from the Sub-Fund's launch date.

Notes to the financial statements (continued)

as at 30th June 2021

Formation expenses are included under "Other expenses" in the statement of operations and other changes in net assets.

h) Conversion of foreign currencies

Cash at banks, other net assets liabilities and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction. Net realised gains or losses on foreign exchange are disclosed in the statement of operations and other changes in net assets.

i) Combined financial statements

The combined financial statements of the SICAV are expressed in euros (EUR) and are equal to the sum of the corresponding items in the financial statements of each Sub-Fund.
